4. Questions - Topics for Discussion

Parental question: What is the percent of students who will not receive an admission to any school for school selection (high school)? What advice is there for families of children not admitted to any of the schools they applied for? Has the district made any changes to the selection process to mitigate this issue?

Dr. Payne suggests for families to use all 5 spots to apply. Also for families to think critically about their selections to ensure they are good fits. This year the district dropped the writing requirement that was put in place last year.

SAC monthly meeting will continue on third Wednesday 6-7:30pm on Zoom
